## Chapter 1 by Darth Vader

In the operating room of the Arecibo there were random frequencies being recorded ranging from 65Hz to 1.2THz. It spelt out a simple message: Is+\_&Anyone@#?:"There?:"}{}. This was the first sign of extraterrestrial communication since the WOW signal. Scientists were baffled at where this signal had came from. They tracked it to the Left Spiral Arm of the Andromeda Galaxy. The next day's newspapers displayed only one thing: "Are We Alone?" Or "Roswell All Over Again?" People thought that extraterrestrial life had finally been discovered, after several hundred years of testing, re-testing, re-re-testing, re-re-re-testing and finally, we discovered something. Criticizers immediately dismissed this as a hoax and it was a bunch of lies. Others were hyped about aliens being discovered. People on FaceBook said: 'It's about time!', 'What can this mean for us?' S.E.T.I replied saying that they were not sure what was happening and was checking that this was not a false alarm. Meanwhile, another message came through: Hello+\_">>!#\$Earth%^&(>We#^&75Are&^%^&Your%^&**Copy.^&In%^&^\*:**This"{}:>%Universe.
